## Reasons for using Sherwin-Williams Dry Powdered Arsenate of Lead.

S. W. Dry Powdered Arsenate of Lead is an exceedingly finely divided, fluffy powder which is greater in bulk per given weight than any other powdered Arsenate of Lead on the market.

One pound or 1½ pounds to 50 gallons of water will control leaf-eating insects where heretofore 2, 3 and 4 pounds of the paste material were required. It represents the highest development in Arsenical Poisons for fruit tree spraying.

## NEIGHBORS STOP WORK OF THIEF

Evidently Knew Place where Money was Kept but Made too Much Noise in Attempting to Gain Entrance to House.

The timely arrival of neighbors doubtless saved the loss of \$100 for Mr. and Mrs. Charles W. Myers, Chambersburg street, whose home was the object of an unwelcome visitor's operations Monday evening about half past nine o'clock. Both Mr. and Mrs. Myers were away from the house from early in the evening until about midnight. When they returned they found that the upper portion of the rear door had been battered and the panel on the lower portion kicked in.

Inquiry among the neighbors revealed the fact that about half past nine o'clock a man was seen working at the door and left only when Mrs. Nellie Picking, living in the adjoining property, let him know he was being watched. Mrs. Andrew Hartman and other neighbors were soon on the scene and the visitor ran out through the yard and garden into the alley. They could tell nothing of his appearance except that he was a man of medium size and wore a raincoat.

Immediately inside of the kitchen door at which he tried to gain entrance, there stands a cabinet and in this Mrs. Myers had placed about \$100 to pay various bills. Suspicion rests upon a man who knew the place of keeping this money, but otherwise there is no clue.

It is not believed the Myers family escaped entirely from loss, however, as Mr. Myers' shop in which he keeps a large quantity of material was entered and things were much disturbed. He has so many things stored there, however, that it is impossible to tell at once whether or not anything was taken. There was no difficulty in gaining entrance to this building as the door was not locked Monday night.

The operations of the supposed thief made the third time for such an occurrence since Mr. and Mrs. Myers have been living on Chambersburg street. No serious loss, however, attended either of the other visits.

## AT COLORED CEMETERY

Will Decorate Graves of Veterans Monday Afternoon.

Memorial Day will be observed by the negro residents of town on Monday. Exercises will be held at St. Paul A. M. E. Zion church at two o'clock in the afternoon and at 3:30 the column will proceed to the colored cemetery where the graves of veterans will be decorated. Rev. W. O. Lyles was chairman and Rev. H. A. Brooks secretary of a meeting held Monday night to make the arrangements.

## LUCKY FIND

Gettysburg Boy Picks up Hat Box of Senator Penrose.

Lester Stouffer, son of Mr. and Mrs. Harry Stouffer, of Water street, found a box containing two hats, the property of United States Senator Penrose who visited Gettysburg Sunday. The box fell from the Penrose machine while going out the Harrisburg road. The hats will be forwarded to him.

## PAID A VISIT

Adams County Officials. Guests of Men at Chambersburg.

The directors of the poor, steward of the almshouse and other officials of the poor board of Adams county visited Chambersburg Monday and were shown the Franklin county public buildings by Attorney T. K. Scheiler and Steward Philip Hellar and given a nice time there.

DOWN goes the price on ladies' coats. We want to round out the greatest coat season we have ever had with clear racks, so we have made new prices on almost every ladies' and child's coat in the house. There is still a splendid selection with quite a good deal less to pay than before at G. W. Weaver and Son.—advertisement 1

## PLAN TO HOLD PEACE SERVICE

Meeting on East Cemetery Hill Next Sunday Evening at which Peace will be the Key-note. Arranging Program.

A patriotic meeting is announced by the local Christian Endeavor societies for East Cemetery Hill on Sunday evening, May 28. The young people's societies of the Presbyterian, United Brethren, St. James Lutheran, and College Lutheran churches will join in the union meeting, and will each be represented on the program.

Not only time and place, but topic as well, are intended to be fitting for patriotic services on the historic ground at the opening of Memorial Day week. The subject to be discussed at the gathering will be, "The Blessings of Peace and How to Get Them." This was the topic scheduled for use in Christian Endeavor societies on last Sunday. Topics and leaders have been interchanged, however, so that the peace meeting may appropriately be held next Sunday.

The committee in charge of arrangements for the services consists of the members of the four societies who are scheduled as the leaders of the "Peace" meeting. These members will take active part in the union service and will select fellow members of their separate societies to assist with brief remarks or musical selections. A large part of the program will consist of vocal and instrumental music.

Active part in the meeting will be taken by students. R. L. Wagner, representing the Presbyterian Society, will preside. The principal addresses will be given by C. E. Venable, of St. James, and L. P. Miller, of College Lutheran societies. Details of the program will be arranged in a few days.

The services will be started at 5:45 o'clock, on East Cemetery Hill. The meeting is to be of the old-fashioned, out-door sort. It will be brought to a close in time for those present to reach their churches for the evening church services.

## SOLDIER BADLY HURT

Dillsburg Young Man Injured at Fort Bliss, Texas.

A telegram received at Dillsburg Tuesday by the parents of H. W. Miller, Mr. and Mrs. William Miller, stated that their son, who is at present stationed at Fort Bliss, Texas, is in the hospital at that place and is in a critical condition, the result of being run over by a wagon. Miller left Dillsburg about seven years ago to enlist in the army. Recently he had been sent with his company to Fort Bliss, where the accident, which it is thought may prove fatal, occurred.

## RAISING BIG FUND

Former Gettysburgian on Committee to Secure Quarter of a Million.

Dr. C. W. Heathcote, formerly of Gettysburg, is one of the professors in the Theological Department of Temple University. At the present time they are engaged in a campaign to raise \$1,000,000 endowment fund for the institution. They are in the midst of an active campaign to raise \$250,000 of the amount in 10 days. In carrying on the work Dr. Heathcote is one of the two representatives from the theological faculty.

## CUTTING THE ROUTE

To Take Hundred and Fifty Miles from Lincoln Highway.

In 1913 the Lincoln highway was 3,404 miles long. Many unnecessary curves have been taken out until it has been reduced to 3,333 miles. Field Secretary H. C. Ostermann expects to have it reduced to 3,250 miles by 1917. Throughout the length of the Lincoln highway great improvements have been made as a result of the Lincoln Highway Association's activities, until now it offers coast to coast tourists fair roads entirely across the American continent.

## CONFERENCE IN ASPERS CHURCH

Lutheran Ministers and Laymen Attend Annual Sessions. Hear Sermon and Discussions. Then Transact Business.

The annual meeting of the Adams County Conference of the West Pennsylvania Lutheran Synod is now in session at Christ Lutheran Church, Aspers. Clergymen and laymen from all the Lutheran churches in this county and from some York County churches are in attendance. The meetings, held in the beautiful new edifice, are very well attended by the people of the community and nearby towns.

The first session was held on Monday evening when the president of the conference, Rev. W. K. Fleck, of Fairfield, preached the sermon. Special music by the choir and congregation was included in the program.

This morning the election of officers resulted in the selection of Rev. Mr. Fleck as president; Rev. F. K. Starnat, Abbottstown, secretary; and Rev. E. Stockslager, Mt. Joy, treasurer. These three men with Harvey Smith, of Wenkville, conducted a very interesting discussion on "Pastoral Leadership in the Community."

This afternoon Rev. George Nicely, of Hanover, discussed "Methods of Imparting Missionary Information." Miss Carrie Musselman, of Gettysburg, "Woman's Part in the Work of the Church"; Rev. Will F. Bare, of York, "Man's Part in the Work of the Church." The address this evening will be by Dr. George M. Diefenderfer, of Carlisle.

The last session of the conference will be held on Wednesday morning when Dr. J. A. Clutz, of Gettysburg, will discuss "The Sermons Needed for To-Day"; and Dr. A. E. Wagner, of Gettysburg, "Civic Righteousness."

Dinner and supper were served today at the church and the visitors are being most hospitably entertained in the homes of the people of the congregation and community.

## CANNOT GET HOWARD

Gettysburg Cannot Prevent his Playing with Hagerstown Terriers.

Manager Farrell, of the National Base Ball Commission, has written Ira Plank that the only way Gettysburg can secure Earl Howard is by refunding the \$300 paid for him by the Denver Club. Until that is done Denver may "farm" him where they please. It is not likely that the Gettysburg directors will see fit to do this, unless the present pitching staff fails, which is not likely if their work of the past ten days continues. Howard has pitched but once for Hagerstown and lost that game, but the papers give him an alibi, claiming that he was handicapped by an incompetent umpire, who was discharged after the game, and that his catcher could not hold his fast ones.

## NO GAME TO-DAY

Four Games with Hagerstown now only Half a Game ahead.

Rain and wet grounds were too much of a combination to-day for base ball and the game with Martinsburg, scheduled for this afternoon, was placed on the postponed list. Hagerstown will appear on Nixon Field to-morrow, the weather man permitting, and Gettysburg goes to Hagerstown the last two days of the week. Gettysburg is now only a half game back of the Terriers and the series should be an interesting one.

A suitable commencement present. We have just received three lots of new silk blouses, one of wash taffeta, ruffled front, sailor collar and cuffs hem-stitched, \$2.50. One of a novelty collar arrangement of white on color, \$2.25. Both the above in colors of flesh, blue, Nile, and white. Another lot of Georgette crepe, hem-stitched, pointed cascade ruffle front, large collar, in white and flesh, \$3.50. G. W. Weaver & Son.—advertisement 1

## GET ORDERS FOR MEMORIAL DAY

Five Minutes for Memories and Lincoln's Gettysburg Address are again included. Local Veterans Instructed.

Members of Corporal Skelly Post 9, G. A. R., and the other Grand Army posts in the county have received copies of the order issued by Colonel C. F. Gramlich, commander of the department of Pennsylvania, for Memorial Day. The order says in part:

"Post Commanders will arrange for the proper observance of Memorial Day, Tuesday, May 30, and will invite the Sons of Veterans, the Woman's Relief Corps, the Ladies of the Grand Army of the Republic, the Daughters of Veterans and other patriotic societies to join with them."

"The Forty Fifth National Encampment, held at Rochester, August, 1914, ordered that as a part of the public exercises of Memorial Day, bells be tolled from 12 o'clock noon, to 12:05; that flags be placed at half-mast, and that comrades remain standing with uncovered heads during this period."

"As a part of the ceremonies of Memorial Day, there will be read Lincoln's Gettysburg Address and General Order No. 11, dated May 5, 1868, published by our first commander-in-chief, John A. Logan, instituting Memorial Day."

"Post Commanders will instruct their patriotic instructors to invite all teachers and superintendents of schools in their localities to arrange a patriotic program for a day during the week prior to Memorial Day and make a detail of comrades to attend these patriotic services."

"Post Commanders will arrange to have their Post attend divine service on the Sunday preceding Memorial Day, May 28, and it is recommended that the Sons of Veterans and other patriotic organizations be invited to participate in these church services."

## TO GIVE EVANGELINE

Grammar School Exercises on Next Friday Afternoon.

The commencement of the Grammar School will be held at the Meade Building on Friday afternoon at two o'clock when the graduates will give a dramatization of "Evangeline," the program including recitations, tableaux, and dialogues from the poem. The address to the graduates will be made by Rev. J. B. Baker. The exercises will begin at two o'clock. On account of the large number of pupils in the school and the limited capacity of the room, admission will be by ticket only.

## ANOTHER IN LINE

More County People will Follow Lead of the Governor.

Franklin township has been added to the districts of this county which will observe Good Roads Day on Thursday. The supervisors ask that all public spirited residents turn out to contribute their labor and teams, also, if needed, to put the highways in good repair. A number of other townships will also fall in line, as well as some of the boroughs.

## NO ASHES

Must Put Everything in Boxes and Barrels for Highway Force.

All preparations are made for the general clean-up of the town on Thursday. Once again the borough authorities want it understood that no ashes will be removed and that the only things to be hauled out will be materials placed in boxes or barrels for quick dumping into the wagons and carts that will be pressed into service for the occasion.

## DRIVE AT BRITISH LINE

Kaiser's Forces Capture Trenches on  
One and a Third Mile Front Near  
Givency, Berlin Reports.

London, May 23.—Fighting of the most intense character is in progress in the Le Mort Homme (Dead Man's Hill) region, northwest of Verdun, where the Germans are desperately battling to break down the French defence and gain undisputed possession of this commanding eminence and the other key position to the Verdun fortress—Hill 304.

The Paris bulletin records the repulse of renewed attacks by the crown prince's troops west of Dead Man's Hill, where the German lines were advanced Saturday night as the result of furious assaults.

Paris also claims the capture of several blockhouses that were held by the Germans in the Avocourt wood southwest of Hill 304, and the beating off of German attempts to recapture the Haudromont quarry, east of the Meuse, near Douaumont, which the French took.

The German assault at Avocourt wood followed a terrific bombardment which lasted four days and nights. The battle of Verdun, the longest and most bitterly contested individual struggle of the war, entered on its fourth month on Monday. The Germans, with characteristic patience and stubbornness, are hammering at Le Mort Homme, where the most furious and bloody fighting of the three months' conflict has taken place.

Clinging desperately to the trenches wrested from the French on the lower slopes of the hill, the Teutons have hurled 60,000 men, backed by sixty batteries of guns of all calibres, forward along a seven-mile front from Avocourt wood to the Meuse in a desperate effort to seize the coveted summit.

As has been usual in this war, whether side launched a well-prepared and strongly delivered offensive the attacking forces have won initial advantages. The Germans succeeded in gaining a footing in the French first line at a cost of severe losses.

A despatch to the London Daily Chronicle says: "The battle of Verdun began on February 21 amid wet and snow; it continues in a blaze of hot sunshine. We know in these three months the German losses exceed 300,000. Fresh regiments are still being brought up to replenish the enemy's exhausted lines. An experienced officer reckons half a million tons of metal have been sprinkled over the Meuse hill sides, 3000 German cannon having fired 15,000,000 shells during the battle."

Several lines of British trenches on a front of about one and one-third miles have been captured by the Germans southwest of Givency-en-Gobelle. It was officially announced in Berlin.

On the northwestern front of Verdun German troops stormed French positions on the eastern spur of Hill 304, and maintained themselves against repeated enemy counter attacks, the war office stated, capturing nine officers, 518 men and five machine guns.

French troops obtained a footing in the quarry south of Haudromont, on the east bank of the Meuse, after three attacks, the war office admitted.

## NEW ATTACK ON DUNKIRK

Berlin Reports Enemy Plane Fell Into  
Sea After Fight.

Berlin, May 23.—The war office issued the following:

"Our air squadrons repeated their attacks with visibly great success on the harbor of Dunkirk. A biplane of the enemy fell into the sea after a fight. Four other aeroplanes were disabled in aerial combats and fell within our lines, one in the vicinity of Werque, another near Noyon, the third near Maucourt, east of the Meuse, and the fourth northeast of Chateau Salins."

French War Cross for Belgian Queen.  
Paris, May 23.—President Poincare has conferred the war cross upon Queen Elizabeth of Belgium "for magnificent valor and untiring devotion in tending the wounded under fire." The queen told President Poincare she was "proud to wear the decoration worn by the French troops."Find Man and Wife Killed.  
Danville, Va., May 23.—The bodies of William S. Carter and his wife, social leaders, were found by a grocer's boy in the kitchen of their home. They were two bullet holes in the back of Mrs. Carter's head, while one bullet through the brain had caused Carter's death.Squid Chief of Aviation.  
Washington, May 23.—Secretary of War Baker announced the appointment of Lieutenant Colonel George O. Squier as head of the aviation section of the signal corps of the army.Ratio of Crime's Increase.  
It is said that crime increases at the rate of 300 per cent every twenty years.

MOTHER, DYING,  
PLEADS FOR CHILDGirl Adopted 27 Years Ago  
Sought by Relatives.

Wilkes-Barre, Pa., May 23.—Relatives of Mrs. Annie Morisani, who is dying at Jessup, Lackawanna county, are here seeking her daughter, who was adopted as a foundling twenty-seven years ago by an unidentified family.

The mother, it is said, has no chance for recovery and she pleads to be reunited with her daughter, from whom she was separated by poverty.

Soon after the birth of the girl, the mother, deserted by her husband, came ill and went to a hospital. She had placed her child in the care of a family which later turned the baby over to a foundling home. When the mother recovered she found that her child had been adopted by a family, the name of which she could not learn. Being in poor circumstances, she decided not to attempt to recover the child.

## COLORED MAN EXECUTED

Westmoreland Slayer Ninth Man to  
Die by Electrocution.

Hellefonte, Pa., May 23.—Maintaining his innocence to the last, Charles Douglass, a colored man, convicted of murder in Westmoreland county, went to his death in the electric chair at the new penitentiary without show of fear or remorse.

He entered the death chamber at 7:02, was seated in the chair at 7:33, and the first contact was made at 7:04. Four shocks were given and Douglass was pronounced dead at 7:59 by Dr. Campbell, penitentiary physician.

Douglass was the second colored man and the ninth man to die by electrocution in Pennsylvania.

Douglass was convicted of the murder of Joseph Smith, of Webster. Robbery was the alleged motive.

## ACCUSED OF FRAUD ON U. S.

Violator of Law in Claims for Soldiers' Burials Alleged.

Lancaster, Pa., May 23.—James A. Heitler, having charge of the United Zion home, near Lititz, was arrested on a warrant issued by United States Commissioner Lowell, at the instance of Pension Inspector Talmage, of Washington, charging him with violating the federal pension laws by putting in fraudulent claims for the burial of soldiers or soldiers' widows.

It is alleged his claims were for full burial bills to the government, when the county had already paid part of them.

## Mauna Loa Emits Lava.

Honolulu, May 23.—Mauna Loa volcano, which was in eruption last week, has broken out again. A flood of lava, which burst forth at an elevation of 7000 feet, is flowing down the mountain side, traveling southwest at about a mile an hour. The glow illuminated the entire landscape at night. Newspapers can be read by its light many miles away.

## Completing Mail Protest.

Washington, May 23.—The new note to Great Britain making further protest against interference with American mails was laid before President Wilson, and probably will be sent to London Wednesday. The general terms of the note were framed at the state department, but the president is including some of his own language.

AUSTRIA EXTENDS  
PLUNGE AT ITALYSweep Lavarone Plateau Clear  
of Enemy.

## BAG MORE PRISONERS

The Scope of Offensive Is Extended  
and Teutons Carry Peak of Armentara Ridge by Storm.

Berlin, May 23.—The Italians have been driven from their entire position on Lavarone plateau, the Austrian war office announcement says. It is stated that the Italian defeat is steadily becoming more serious.

The Austrian lines have been pushed forward rapidly, several additional positions of strategic importance having been captured. The number of Italians taken prisoner has been increased to 23,883.

## The official statement follows:

"The Italian defeat on the southern Tyrol front is becoming more serious. An attack of the Graz corps on Lavarone plateau was attended with complete success. The enemy was driven from its entire position. Our troops captured Fima, Mandriolo and the height immediately west of the frontier from the summit as far as the Astach valley."

"The troops of Crown Prince Charles Francis Joseph reached the Monte Tormino-Monte Maio line."

"Since the beginning of the offensive 23,883 Italians, among whom are 482 officers, have been captured by us. The number of cannon taken has been increased to 172."

An earlier official statement from Berlin said Austria-Hungarian troops have carried the peak of Armentara ridge, the scene of some of the heaviest fighting in the recently inaugurated offensive along the southern Tyrol front.

The Austrians have extended the scope of their offensive attacking the Italians on Lavarone highlands. There they entered a first line position of the Italians after severe fighting. The official announcement follows:

"The extent of the fighting on the southern Tyrol front has been increased as the Austro-Hungarians have begun an attack on Lavarone highlands. The peak of Armentara ridge is in our hands. On Lavarone highlands we entered a first line position of the enemy, which was defended tenaciously."

"The troops under Archduke Charles Francis Joseph (the Austrian crown prince), consisting of Tyrolean imperial Chasseurs and the Linz infantry division, extended their success. Chikmak Imach and to the northeast of this peak, Chikmadin Esale were taken. The Italians also were driven from Bercola pass. South of this pass three more 23-centimetre howitzers fell into our hands."

"We are advancing from Col Santo toward Pasubio. In the Brand valley, Angheben has been captured by us."

"More than 3000 Italians were captured Sunday, including eighty-four oficers. We also took twenty-five cannon and eight machine guns."

## ITALIAN STEAMSHIP SUNK

Believed Victim of U-Boat—Three  
German Vessels Destroyed.

London, May 23.—The Italian steamship Birmenia, 2215 tons, has been sunk, presumably by a submarine, Lloyd's announced.

Russian and British submarines continue to harass German shipping in the Baltic. An Exchange Telegraph despatch from Copenhagen quotes the "Politiken" as saying the German steamship Worms, 4428 tons gross and owned in Hamburg, is believed to have been one of the latest victims. The Worms left Sweden several days ago and has not reached Germany.

A Stockholm despatch says that the German steamship Hebe and Pera, carrying coal, were sunk on Saturday night by a submarine off the southern coast of Cape Land.

## 15,000 MAJORITY FOR HUGHES

Roosevelt Gets Negligible Support in  
Oregon Poll.

Portland, Ore., May 23.—With sixty per cent of the vote cast in the statewide primary election counted, and with all but four of the thirty-five counties heard from, it became apparent that, of the nearly 100,000 Republican votes cast, Charles E. Hughes received a clear majority over all other presidential candidates of approximately 15,000.

His plurality over Senator Albert B. Cummins will be approximately 25,000, while Senator Cummins has received more than twice as many votes as former Senator Theodore E. Burton, of Ohio.

The vote received by Colonel Roosevelt for the Republican nomination was only negligible, although on the Progressive ballot he received the vote of that party as its nominee.

## Seek Return of Band Instruments.

Reading, Pa., May 23.—The Goughersville band started equity proceedings against half a dozen expelled members for the recovery of musical instruments and for the return of four sets of harness, belonging to the band wagon.

MAY COMPROMISE  
WITH NEW YORKAssembly May Investigate New  
York Heresy Case.

Atlantic City, N. J., May 23.—When Rev. Dr. J. Ross Stevenson, chairman of the committee on bills and overtures, of the Presbyterian general assembly reported that his committee would like to have additional time to consider the matter of the heresy charges against the New York Presbytery, he made direct reference for the first time to one of the compromise overtures that is being considered.

Several of these compromise overtures have been considered by the committee, but one that seems to be in most favor of recommending to the assembly was presented to the committee by Rev. Dr. T. Davis Richards, pastor of the Noeview Presbyterian church, Germantown, Md.

This recommends that a committee of "visitation and investigation" of six ministers and five elders be appointed by the assembly, and further directs that this committee be asked to report to next year's assembly the result of its work, and recommendation.

## LYNCH DECISION CONFIRMED

Ambassador Page Wires British in  
formed Him of Commutation.

Washington, May 23.—Walter H. Page, American ambassador at London, cabled the state department that he had been officially advised by the British government that Jeremiah C. Lynch, the naturalized American citizen convicted of complicity in the Dublin uprising, had originally been sentenced to death, but that the sentence had been commuted to ten years' imprisonment.

There is nothing in the message to indicate whether the representations ordered by President Wilson in Lynch's behalf had resulted in the commutation of sentence.

Mr. Page also reported that John J. Kilgallon, of Long Island City, N. Y., is interned in a camp at Stafford, England. Mr. Page said he hoped soon to secure Kilgallon's release.

## MAY MAKE BLIND SEE

Believes Radium Screen Will Restore  
Sight.

Pittsburgh, Pa., May 23.—Radium may yet enable the blind to see, in the opinion of Ethan I. Dods, an engineer, who has invented a radium screen in which he hopes to make the sightless person see moving objects.

Where the retina of the eye is not destroyed, he believes that it will be possible to carry an object to the brain through the optic nerve by means of his invention.

He said that although a patent has been applied for, he proposes to dedicate the invention to the general public.

## Schwab Host to Musicians.

Bethlehem, Pa., May 23.—Charles M. Schwab was toastmaster at a banquet, given by him to the members of the Lehigh Valley Symphony Orchestra, who have served gratuitously at many Lehigh Valley functions the past season.

## "Backs Across Continent."

New York, May 23.—Patrick Harman, who bet \$20,000 he could walk backwards from San Francisco to New York in 260 days, arrived at City Hall park, still facing the west. His time was 239 days. He could have done better, he said, but for sickness.

## Gives \$100,000 for Blind.

New York, May 23.—By the will of Mrs. Ellen Corbett Stevens, filed for probate, \$100,000 was bequeathed to the New York Association for the Blind.

## W. C. T. U. MEETING

Many Take Part in Discussions on  
the Various Topics.

(Contributed)

At the regular meeting of the St. Courageous Union a number of the superintendents reported work done or needed.

Mrs. Kreider spoke of the amount of alcohol in proprietary remedies and drugs, and urged the ladies to read the labels on all articles purchased. She also recommended a crusade against cigarette smoking.

Mrs. Wentz reminded them of flower mission day, June 9, in memory of the founder of flower missions, Jennie Cassiday.

Mrs. Creager explained the objects of medal contests.

Mrs. Winebrenner urged more attention to purity and temperance talks in the Sunday School.

Miss Bushman gave a list of dangerous books, with misleading titles, put out in the interests of the liquor business, making it necessary to watch, and meet it with temperance literature and a timely warning. She also asked permission to put up wall pockets in the railroad waiting rooms, which met with approval and a promise from the members to furnish suitable reading matter.

Copies of "The Compendium of Temperance Truth" had been presented to the two schools by St. Courageous Union, for which they returned thanks to the Union, and also to Mrs. Keith for her accompanying remarks.

Dr. Parsons was glad for helpers in observing Temperance Sunday and engaged Mrs. Kreider for the next, June 11.

Mrs. Keith followed, in a short paper on parliamentary usage, emphasizing some points, on which we all need coaching.

Miss Bushman reported ten Union Signals ordered to supply Sunday School superintendents, and the honorary members of our Union were added to the list.

The time of meeting for the summer was fixed for the first Monday evening in the month.

## NURSE TO BECOME QUEEN OF ISLAND

Will Rule Small Tribe in the  
Mideastern Pacific.

## KINGDOM HAS 195 SOULS.

Pitcairn Island, Belonging to Great Britain, Has an Area of Two Square Miles—First Settled in 1790 by Members of Ship Crew Who Had Mutinied. Twenty-six Persons Started Tribe.

Miss Emily McCoy, a graduate nurse, who has lived in Bridgeport, Conn., eight years, will start within a few weeks for Pitcairn Island, in the mid-eastern Pacific ocean, where she expects in time to be chosen as queen to succeed her father, who has been ruler of the little kingdom of 195 souls for many years.

She is going back to her people with twentieth century ideas and many plans, one of which is the determination to practice the art of healing among the inhabitants, to whom physicians, nurses and dentists have never been known since the island was colonized by mutineers 126 years ago.

Miss McCoy left Pitcairn Island fifteen years ago by a missionary boat following the death of her mother, who suffered much because of want of medical aid. She promised then that she would not return until she equipped herself as a physician and nurse in order to be able to minister to the physical wants of the people of the island on which she was born. She studied medicine and dentistry at Samoa, and since she has been in this country she has thoroughly equipped herself in the science of nursing. She believes that she is qualified to do a mighty work of mercy among those she loves.

### Will Take a Piano.

Miss McCoy will take with her a piano. With the exception of an organ which Queen Victoria gave to the Pitcairn Islanders in 1870 the piano, she says, will be the only musical instrument on the island.

Inasmuch as the Pitcairn women are in the majority and women have the vote as well as men, there doesn't seem to be any doubt that Miss McCoy will in time be called upon to step into her father's shoes as the ruler. The ruler is chosen by direct election.

Ships seldom go to Pitcairn Island, and Miss McCoy has been figuring for eight years just how to get home. The opening of the Panama canal gives vessels a direct route to the Samoan Islands, and she is confident that she will be able to complete the trip without much difficulty.

Pitcairn Island belongs to Great Britain. It lies south of the Panama canal and is a hundred miles from the nearest member of this group. It has an area of two square miles. The island was settled in 1790 by members of the crew of the ship Bounty, who had mutinied. Headed by Fletcher Christian, who led the mutineers, eight white men, six Polynesian men and twelve Polynesian women took possession of the beautiful island and burned the Bounty. Alexander Smith was the only man alive by 1800. He later took the name of Alexander John Adams and trained the youths who were left in his charge.

He was succeeded after his death in 1829 by George Hunn Nobbs, who was appointed pastor. In 1831 Joshua Hill, an adventurer, appeared at Pitcairn and, making a bluff that he was a government agent, tyrannized over the islanders until a British man-of-war put him out of business in 1838.

The islanders are closely intermarried and have, it is said, but five family names. All speak and write English and are Seventh Day Adventists. They have no money, and intoxication is unknown. Girls over seventeen can vote.

Ships rarely visit Pitcairn except when the crews are in need of vegetables and fruits.

## WANTS GIRL FOR GODMOTHER.

Belgian Soldier Writes Burgomaster Mitchell, Asking For One.

Mayor Mitchell of New York has received the following communication from a Belgian soldier interned in Holland:

To the Burgomaster of the City of New York:

Sir—I, the undersigned, C. Lorrimer, quartermaster, have the honor of writing you this letter to beg you to be so kind as to give me the following information:

Is there not among the pretty girls of your city one who would be a godmother to a Belgian soldier and correspond with him? If so, I should be happy to be that soldier. Hoping that my request will meet with a favorable answer, I beg you, sir, to accept my respectful civilities.

C. LORRIMER,  
Quartermaster Fourth Belgian Lancers,  
Camp 26, Zeist, Holland.

Burgomaster Mitchell thought that the best way to obtain the information desired by Quartermaster Lorrimer was to make his letter public. Some one in the mayor's office familiar with these matters appended to the letter the following inducement:

"This request for a 'marraine' is quite in keeping with what has been done during the winter all through France. Letters received in New York from young women in France show that there is a fairly widespread custom of the adoption of soldiers left without friends or family 'en poltre,' as they call them, and in some cases one girl is godmother to several 'politres' and corresponds with them."

### Yankee Doodle Game.

One player goes out of the room. During his absence the rest decide on a proverb, and each player is given a word of this proverb to sing to the tune of "Yankee Doodle." There may be many players singing the same word, and the plan of giving out the words should be in irregular order. When the player returns he hears the tune "Yankee Doodle," but he finds each person repeating some word continually. He passes around, gathering up the words, one by one, until he can announce the proverb. The player is sent out whose word gave him the clue and the game continues.

### FAIRFIELD

Fairfield—The memorial sermon before James Dixon Post G. A. R. No. 83 will be preached in the Methodist church Sunday afternoon, May 28th at 2 o'clock by Rev. W. F. Godwin. Since last memorial day, two of the veterans have died, March 3d, Joseph Hamilton Creager, who served in 6th Regiment Maryland Volunteers, and Isaac Howard Moore, who served in Company B 138th Pennsylvania Volunteers, who died March 13th.

Decoration day exercises will be held here on May 30th, meeting at the G. A. R. hall at 8:30 o'clock a. m., thence to cemeteries, west of town, where James Dixon Post will hold services. Rev. W. K. Fleck will make the address.

On Monday afternoon, May 29th, at 2 o'clock James Dixon Post will decorate the graves of their comrades at Marsh Creek Presbyterian cemetery.

Sunday afternoon, June 4th, at 2 o'clock memorial services will be held at Fountaindale by James Dixon Post. Everybody is invited to attend all these services.

### New Method of Making Bread.

A new method of making bread has been adopted in Italy. It is found that 500 pounds of grain produce 880 pounds of what is termed "natural bread." In the process the grain is sifted and washed. It is then left for from forty-eight to sixty hours in a warm bath, where it germinates and begins to sprout. When the germinating process has gone far enough the grain is crushed in a machine and made into dough, which is passed into the oven.

### Girls Life Guards at Beach.

New York, May 23.—Eighty girls were commissioned as lifeguards to patrol the bathing beaches at the graduation exercises of the Training School for Salvation Army officers here Sunday. The corps is the first of its kind ever organized by the army.

**CLEAR, PEACHY SKIN  
AWAITS ANYONE WHO  
DRINKS HOT WATER**

Says: an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with puffy or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags," and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

### DON'T GO TO BED WITH COLD FEET.

Says: "Often Brings on Attacks of Acute Rheumatism."

An ounce of prevention is worth a pound of cure, and people who are subject to attacks of rheumatism should never go to bed with cold feet. A whole lot is being said about taking salts and effervescent tablets for rheumatism and sciatica, but those who suffer sharp twigs and painful swollen joints need something powerful to overcome their piteous suffering.

Any broad-minded druggist will tell you that one-half teaspoonful of Rheumatism taken once a day is driving more rheumatism out of afflicted people than all the salts on earth. Right in this neighborhood People's Drug Store and all druggists sell large quantities of it, and it's the surest and most inexpensive remedy—about 50 cents a bottle.

## CHAPTER XIX.

## Off to Meet Strange Foe.

**A**T earliest dawn our camp was astir, and an hour later we had started upon our memorable expedition. Often in my dreams have I thought that I might live to be a war correspondent. In what wildest one could I have conceived the nature of the campaign which it should be my lot to report! Here, then, is my first dispatch from a field of battle:

Our numbers had been re-enforced during the night by a fresh batch of natives from the caves, and we may have been 400 or 500 strong when we made our advance. A fringe of scouts was thrown out in front, and behind them the whole force, a solid column made their way up the long slope of the bush country until we were near the edge of the forest. Here they spread out into a long straggling line of spearmen and bowmen. Roxton and Summerlee took their position upon the right flank, while Challenger and I were on the left. It was a host of the stone age that we were accompanying to battle—we with the last word of the gunsmith's art from St. James' street and the Strand.

We had not long to wait for our enemy. A wild, shrill clamor rose from the edge of the wood, and suddenly a body of ape men rushed out with clubs and stones and made for the center of the Indian line. It was a valiant move, but a foolish one, for the great, bandy legged creatures were slow of foot, while their opponents were as active as cats. It was horrible to see the fierce brutes, with foaming mouths and glaring eyes, rushing and grasping but forever missing their elusive enemies, while arrow after arrow buried itself in their hides. One great fellow ran past me roaring with pain, with a dozen darts sticking from his chest and ribs. In mercy I put a bullet through his skull, and he fell sprawling among the aloes. But this was the only shot fired, for the attack had been on the center of the line, and the Indians there had needed no help of ours in repulsing it. Of all the ape men who had rushed out into the open I do not think that one got back to cover.

But the matter was more deadly when we came among the trees. For an hour or more after we entered the wood there was a desperate struggle, in which for a time we hardly held our own. Springing out from among the scrub, the ape men with huge clubs broke in upon the Indians and often felled three or four of them before they could be speared. Their frightful blows shattered everything upon which they fell. One of them knocked Summerlee's rifle to matchwood, and the next would have crushed his skull had an Indian not stabbed the beast to the heart. Other ape men in the trees above us hurled down stones and logs of wood, occasionally dropping bodily on to our ranks and fighting furiously until they were felled. Once our allies broke under the pressure, and had it not been for the execution done by our rifles they would certainly have taken to their heels. But they were gallantly rallied by their old chief and came on with such a rush that the ape men began in turn to give way. Summerlee was weaponless, but I was emptying my magazine as quick as I could fire, and on the farther flank we heard the continuous cracking of our companions' rifles.

Then in a moment came the panic and the collapse. Screaming and howling, the great creatures rushed away in all directions through the brushwood, while our allies yelled in their savage delight, following swiftly after their flying enemies. All the feuds of countless generations, all the hatreds and cruelties of their narrow history, all the memories of ill usage and persecution, were to be purged that day.

Their Frightful Blows Shattered Everything Upon Which They Fell.

At last man was to be supreme and the man-beast to find forever his allotted place. Fly as they would, the fugitives were too slow to escape from the active savages, and from every side in the tangled woods we heard the exultant yells, the twanging of bows and the crash and thud as ape men were brought down from their hiding places by the trees.

I was following the others when I found that Lord John and Challenger had come across to join us.

"It's over," said Lord John. "I think we can leave the tidying up to them. Perhaps the less we see of it the better we shall sleep."

Challenger's eyes were shining with the lust of slaughter.

It needed a robust faith in the end to justify such tragic means. As we advanced together through the woods we found the ape men lying thick transfixed with spears or arrows. Here and there a little group of shattered Indians marked where one of the anthropoids had turned to bay and sold his life dearly. Always in front of us we heard the yelling and roaring which showed the direction of the pursuit. The ape men had been driven back to their city, they had made a last stand there, once again they had been broken, and now we were in time to see the final fearful scene of all. Some eighty or a hundred males, the last survivors, had been driven across that same little clearing which led to the edge of the cliff, the scene of our own exploit two days before. As we arrived the Indians, a semicircle of spearmen, had closed in on them, and in a minute it was over. Thirty or forty died when they stood. The others, screaming and clawing, were thrust over the precipice and went hurtling down, as their prisoners had of old, on to the sharp bamboo 900 feet below. It was as Challenger had said, and the reign of man was assured forever in Maple White Land. The males were exterminated. Ape Town was destroyed, the females and young were driven away to live in bondage, and the long rivalry of untold centuries had reached its bloody end.

For us the victory brought much advantage. Once again we were able to visit our camp and get at our stores. Once more also we were able to communicate with Zumbo, who had been terrified by the spectacle from afar of an avalanche of apes falling from the edge of the cliff.

"Come away, Massas; come away!" he cried, his eyes starting from his head. "The dehhil get you sure if you stay up there!"

"It is the voice of sanity," said Summerlee, with conviction. "We have had adventures enough, and they are neither suitable to our character or our position. I hold you to your word, Challenger. From now onward you devote your energies to getting us out of this horrible country and back once more to civilization."

We had returned across the plateau with our allies two days after the battle and made our camp at the foot of their cliffs. They would have us share their caves with them, but Lord John would by no means consent to it, considering that to do so would put us in their power if they were treacherously disposed. We kept our independence, therefore, and had our weapons ready for any emergency while preserving the most friendly relations. We also continually visited their caves, which were most remarkable places, though whether made by man or by nature we have never been able to determine. They were all on the one stratum, hallowed out of some soft rock which lay between the volcanic basalt forming the ruddy cliffs above them and the hard granite which formed their base.

## PINEAPPLES GALORE.

**F**RESH PINEAPPLE SALAD.—This recipe is for a delectable pineapple salad that calls for the fresh fruit instead of the canned. The pineapple must be very ripe. You know how to tell a ripe pineapple, don't you? The yellow color is of course one symptom of ripeness. Another is loose spikes at the top. Seize one of these top spikes firmly between the thumb and finger, twist it, and if it comes out readily the pine is ripe. Remove the eyes and skin from a pine apple and dice the rest, save the hard heart. Get as much juice out of that as possible. Dice the pulp of two grapefruit. Drain both pineapple and grapefruit pulp in an enameled sieve. Chill on ice and then mix with half a cupful of celery hearts cut fine. Dress with French dressing and serve in lettuce leaves, and top each with a spoonful of mayonnaise dressing.

Pineapple and Strawberries. Pineapple and strawberries can be combined in several delicious ways. The fresh fruit may be shredded, sweetened and chilled for several hours, then placed in a dessert dish and piled high with luscious strawberries. Or pineapple can be chilled after being shredded and sweetened if the fresh sort is used, merely shredded if canned; then, just before serving, it can be poured with the juice into a serving dish or into individual dessert glasses lined with lady fingers split in half. Over the pineapple whipped cream mixed with strawberries should be added.

## Why You Should Own a Maxwell

## Comfort

First, because it is a comfortable riding car. Plenty of room for five people; deep, soft cushions; springs made of the best spring steel, scientifically heat-treated, accurately suspended and balanced. You will always be comfortable in a Maxwell.

## Appearance

Second, because the Maxwell is a trim, smart, good-looking car.

Many makers of heavy, high priced cars, as you know, have copied the general lines, the shape of the body and hood of the Maxwell. This is more of a compliment than an infringement.

## Service

Third, because the Maxwell, being a product of thirteen years evolution, is so designed and manufactured that it gives unfailing, consistent and satisfying service to thousands of owners.

Maxwell cars are made of the best materials that money and brains can buy—and they are made right. You can get out of any car only what is put into it.

## Low First-Cost

Fourth, because you get everything in a Maxwell that you can get in any car and you get it for less money.

The answer to this is that the Maxwell is a light car and it is built in enormous quantities. The Maxwell Co. is one of the three largest producers of high grade motor cars in the world.

## Low After-Cost

Fifth, because the Maxwell will give you more miles per dollar than any car built.

We say this without hesitation or doubt. It is our honest belief and we are willing to prove it by Maxwell owners, by comparison with any other car or by any other way you suggest or prefer.

The Maxwell will please you. We know it will. Let us arrange for a demonstration and we'll take the responsibility of satisfying you completely.

### BETTER SUMMER SKIRTS

Wooltex-Tailored  
Wooltex-Shrunk

JUST think of being able to get summer skirts of wash materials, designed and made by the same designers and tailors who make the famous Wooltex Coats and Suits.

Such skill was never before applied to the designing and making of wash Skirts.

Think how carefully the materials are selected. Each piece painstakingly inspected as it comes from the mills—not carelessly accepted on faith—and shrunken by a special Wooltex

process that eliminates a large part of the shrinkage which proves so annoying in the ordinary wash Skirts.

Even the waist bands are Wooltex-shrunk, insuring a trim-fitting skirt after laundering as well as before.

Every seam is needed by the same craftsmen that make the skillfully tailored Wooltex suits and coats.

Is it any wonder that Wooltex-tailored skirts are eagerly sought by those discriminating women to whom superiority in design and quality is important?

The prices are surprisingly moderate because they are made economically in this between-season period.

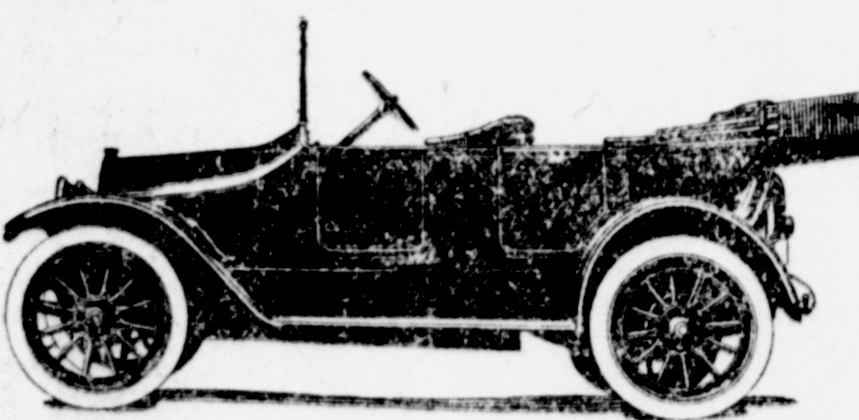

Come and inspect the Wooltex-tailored wash skirts for yourself. You will appreciate the many superiorities of these better summer skirts.

### Read What This Car Did

The 1916 Maxwell - 25

#### From Detroit to Gettysburg

552 miles on 26 1-2 gallons of gasoline

J. HERMAN BREEM, of the Centre Square Garage, who is agent for the Maxwell Cars, left the factory in Detroit on Friday, with three other passengers in the above car.

They arrived in Gettysburg Sunday evening and the speedometer registered exactly 552 miles. A careful measurement of the gasoline, oil, and water showed that they used 26 1-2 gallons of gas, 7 quarts of oil, and 7 quarts of water.

This means that the car, which was brand new (there was no opportunity to have the motor loosened up) came over MUDDY ROADS and made an average of nearly 21 MILES TO THE GALLON OF GAS and 79 MILES ON ONE QUART OF OIL.

The total Garage bill for the trip was \$9.43.

Having made this run, the car will be sold as "second hand", at a price considerably below the market value. It is on display at the

#### Centre Square Garage

and you are invited to see if you can pick it out from other brand new cars of the same model that stand beside it.

#### MUNICIPAL MOVIES MAY SOON COME INTO VOGUE

One Kansas Town Already Owns the Nickel Theater.

Having rounded up 192 municipal lighting plants, 17 gas plants and more than 200 water plants, Kansas is now after municipal ownership of its motion picture theaters. One Kansas town already owns its motion picture house and refuses to let any private competitor come in. Three other towns are arranging for municipally owned and conducted movie houses.

Kansas believes in municipal ownership not because of any theoretical views, but because of actual experience, says the Kansas City Star. Community after community has entered the field of electric lighting, for example, and without exception they have lowered their rates and improved their service. All the publicity of utility monopolists avails nothing in the face of the concrete facts as Kansas has discovered them. You can't tell a Kansan that municipal ownership is a failure and get away with it when the city light plant which he patronizes has cut his bills in two and given him better service.

Kansas has a public utility commission, but there is no "certificate of convenience and necessity" provision, as in Wisconsin, which gives the private company in the field an everlasting monopoly and a perpetual franchise. Corporation "regulations" tried to tack such a provision on to the Kansas law at the last session of the Kansas legislature, but the municipal ownership people in Kansas proved too much for them.

If he doesn't like the way the public utility corporation does business the Kansan demands as an inalienable right that he be free to tackle the business himself. The welfare of a whole community is more to him than the fictitious "right" of any eastern capitalist to bleed a people indefinitely merely because he has an investment made originally for that purpose.

If the individual capitalist can do business on the same basis as the city—and he usually can if he is forced by competition to do so—he is welcome to continue in operation. If he can't he may seek other investments in other states, where there is greater reference for "widowed and orphaned" stockholders and the divinity of 7 per cent.

#### Choir of Policemen.

Charles L. Safford, choirmaster of St. George's church, New York, is proud of his chorus of 100 policemen. This organization came into existence a few months ago, when the singing of a policemen's quartet suggested to Commissioner Woods the possibility of a chorus. He enlisted the interest and help of Mr. Safford.

## RUMORS AROUND IN WASHINGTON

One Says Financiers Will Oppose Either T. R. or Hughes.

### DELEGATES ARE IN CONTROL

No Convention of Recent Years Has Been Under Such Absolute Domination of Representatives of the People as Will Be the Gathering in Chicago on June 7.

By ARTHUR W. DUNN.

Washington, May 23.—[Special.]—All sorts of political stories are set afloat in Washington these days. We hear from time to time that a group of powerful politicians and a group of moneyed men have agreed upon the Republican candidate. Sometimes it is said that former Senator Root has been selected, at other times Burton. Weeks or some man who is to be sprung as a dark horse at the auspicious time.

One interesting feature about these rumors is the fact that it is never stated that the groups of politicians or business men have agreed upon either Justice Hughes or Colonel Roosevelt. Perhaps this is because it is quite well understood that politicians and many of the big business men would prefer almost any other candidate than either the colonel or the associate justice.

#### Delegates Will Decide.

It is to be stated that there has not been a Republican convention in many years that will be so thoroughly under the control of the delegates chosen by the various states as the one assembling on June 7. No group of politicians or business men will be able to control a majority of these delegates according to the best information that has been received thus far.

Probably there was no time when groups of politicians and big business men had a greater control than in 1888 and in the final determination it is well known that they had much to do with the selection of the nominee. Since that time the candidate has been selected long in advance of the assembling of the convention.

In this year of 1916 the Republicans assemble with more doubt as to who will be the ultimate choice than at any time since '88. The general impression seems to be that either Hughes or Roosevelt will finally land the prize.

#### Thinks He Will Be Elected.

Senator Ashurst of Arizona thinks he will be re-elected next fall. His seat is one of those which the Republicans have in view with the idea of gaining control of the senate. "Of course I will be re-elected," remarked Ashurst. "If I did not think so I would issue a statement saying that my personal business demanded my time and that I could not afford another term in the senate. I believe that is the general formula of men who come to the conclusion that the people prefer some other man."

#### "Calming the Mississippi."

When the flood control bill was under consideration in the house Congressman Fitzgerald, chairman of the committee on appropriations, remarked that "they are calming the Mississippi river." He referred to the statements then made that in order to make the Mississippi river a navigable stream the banks would have to be revetted nearly its entire length. "It is not for navigation," said this New York member, and he then quoted a remark frequently heard during the discussion, "It is to prevent the overflow of many millions of acres of lands which in time will produce seven or eight hundred millions of dollars' worth of crops each year."

The chairman of the appropriations committee was not well pleased with the flood control bill.

#### Regarding a Suffrage Plank.

One delicate question which the Republican national convention will have to decide is whether to incorporate a woman suffrage plank in the platform. There is going to be a greater demand for a suffrage plank than ever before, and the argument will be made that a majority of Republicans have generally voted for suffrage.

On the other hand, a number of prominent men in the party are opposed to suffrage, and the action of the states of New York, Pennsylvania, Massachusetts and New Jersey, which voted on the subject last year, will be cited as a reason why this is not the time to make suffrage an issue.

An argument which the suffragists will use is that the women vote for presidential electors in eleven states and that the party which puts suffrage in the platform will be sure of those states. This will be met by the counter argument that the suffrage question ought not now to be made an issue between the parties, especially when there are so many other subjects of prime importance which must be in issue in the campaign.

#### Had Heard the Expression.

Speaker Champ Clark in advocating the rural credits bill quoted from the Democratic platform a plank in support of the measure and then turned to the Republican platform. "The Republicans raised us at our own game," remarked Champ, "to use the phraseology of a game I have heard much about, but do not understand." There were not many members of the house, however, who did not understand the phraseology.

#### Antagonism That Helps.

He that wrestles with us strengthens our nerves and sharpens our skill. Our antagonist is our helper.—Burke.
